**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions and listings of claims in the application:

**LISTING OF CLAIMS:**

1. (original) A hair trim guide comprising:  
an eyeglass frame having a front face frame and a pair of temple pieces attached to and extending rearwardly from said front face frame, each of the pair of temple pieces biased inwardly and having a portion thereof resting upon an ear of a user when said eyeglass frame is positioned for use by said user; and  
a trim guide selectively pegged to said eyeglass frame.
2. (original) A hair trim guide according to Claim 1, and further comprising:  
at least one peg attached to said eyeglass frame and projecting therefrom, wherein said trim guide having at least one aperture formed therein.
3. (original) A hair trim guide according to Claim 2, wherein said trim guide has a plurality of apertures formed therein.
4. (original) A hair trim guide according to Claim 3, wherein said plurality of apertures of said trim guide are configured in an array.
5. (original) A hair trim guide according to Claim 4, wherein said plurality of apertures of said trim guide are configured in a vertical array.
6. (currently amended) A hair trim guide according to Claim 3, wherein at least a pair of pegs are attached to said

eyeglass frame, at least one peg of said at least a pair of pegs  
is attached to and projects from each of said pair of temple  
pieces.

7. (original) A hair trim guide according to Claim 6,  
wherein a plurality of pegs are attached to and project from  
each of said pair of temple pieces.

8. (original) A hair trim guide according to Claim 4,  
wherein said trim guide is frangible.

9. (original) A hair trim guide according to Claim 8, and  
further comprising a plurality of cut line inscribed in said  
trim guide.

10. (original) A hair trim guide according to Claim 9,  
wherein said cut lines extend vertically, horizontally, and on a  
bias.

11. (original) A hair trim guide according to Claim 1, and  
further comprising at least a pair of pegs attached to said trim  
guide and projecting therefrom, wherein said eyeglass frame  
having at least a pair of apertures formed therein.

12. (original) A hair trim guide according to Claim 11,  
wherein a plurality of pegs are attached to and project from  
said trim guide.

13. (original) A hair trim guide according to Claim 12,  
wherein said plurality of pegs attached to said trim guide are  
configured in a pair of vertical arrays.

14. (currently amended) A hair trim guide ~~according to~~  
Claim 13 comprising:

an eyeglass frame having a front face frame and a pair  
of temple pieces attached to and extending rearwardly from  
said front face frame, each of the pair of temple pieces
